Elanco Animal Health

4:50 PM  ENOUGH
Dennis Schaffler, DVM
Elanco Animal Health

5:50 PM  Wrap-up and Questions

6:00 PM  Evening Reception and Social Hour

What are The Vital 90™ Days?
Look beyond the traditional transition period and focus on managing The Vital 90 Days—when multiple transitions occur. The Vital 90 Days begin approximately 60 days prior to calving and continue through the first 30 days of lactation. During this period, it is essential to carefully manage energy balance and immune function to ensure successful lactations.

Please join us for this Pre-Conference Symposium on The Vital 90 Days

Note Concerning Veterinary Continuing Education Credits
This program has been submitted (but not yet approved) for hours of continuing education credit in jurisdictions which recognize AAVSB RACE approval; however participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education. Call Elanco Operations at 317-276-7888 for further information.
